An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Kenneth Glynn on June 30, 2009.

The application has been amended as follows:

Please amend claim 56 as follows:

56. The bankruptcy practice credit manager interact system of claim ~~40~~ 49 wherein there are at least four levels of security providing different levels of editing for each level of security, including a master level, an attorney level, a bankruptcy client level and a third party level.

Allowable Subject Matter

Claims 41-56 are allowed.

Art Unit: 3695

The following is an examiner's statement of reasons for allowance: The present invention generally discloses a bankruptcy practice program in the context of an Internet system. However, the prior arts of record fail to teach, singly or in combination, third party processor computers, which are provided read only access to said bankruptcy practice program via said at least one host server; an Internet system, including at least one host server, said at least host server having said bankruptcy practice program with a homepage and with sufficient software to: (i) provide to said at least one manager processor computer access to said bankruptcy practice program, secured access to said program to set up individual bankrupt client case files, which are secured to prevent any other users from write functions with respect thereto, editing capabilities, and input and transmittal capabilities for notices; (ii) provide to said plurality of creditor processor computers access to said bankruptcy practice program, limited access to said program to provide informational access, claimant creditor information sheet inputs and valid voting capability for plans, and to deny said plurality of creditor processor computer access to secured manager processor computer write functions. (iii) provide at least three levels of security providing different levels of editing for each level of security, including a master level, an attorney level and bankruptcy client level.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
